

JLG Forklift Parts

JLG Forklift Parts - In the late 1960's John L. Grove, with his wife Cora started out on a cross country trip in their RV. Recently retired, after spending numerous years working with his brother to develop their crane business into an industry leader, John had no idea that momentous trip would allow JLG Industries, Inc to emerge. The world leader of mobile aerial work platforms and precision materials handling equipment was the end consequence of a road expedition.

During their journey, John reacquainted himself with former business acquaintances along the way. In combination with these conversations and a noteworthy event; two workers had been unfortunately electrocuted on scaffolding when the Groves were passing through the Hoover Dam. John uncovered an infinite marketplace for a product that could quickly and securely lift individuals in the air to accomplish maintenance and other building functions.

Upon returning from their travels, John formed a partnership with two friends and bought a metal fabrication business in McConnellsburg, Pennsylvania. In 1970, opening operations with a crew of twenty personnel, they created and sold the first JLG aerial work platform. The company incorporates some of the basic design essentials of that original lift into current designs.

Since then, JLG Forklifts have come a long way from when Mr. John L. Grove came back from his fatefull cross-country trip and since the first JLG aerial platform entered the market. As of today, the business has extended itself into many different international markets and continues to cultivate innovative machines to ensure that consumers are able to become safer and more well-organized within their workplace.
