

Concrete Hopper

Concrete Hopper - This attachment is a self-dumping hopper which automatically sets off to dump as soon as bumper release contacts the side of a dumpster. When unloading is done, the hopper returns to an upright and locked position. This particular piece of machinery likewise comes along with a cable which enables operation from the seat of the forklift so as to have the option of manually unloading the hopper. There is a locking chain provided to secure the hopper to the fork truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to be able to maintain durability.
