

Meritor Part

Meritor Parts - The Meritor Company is a leading global dealer established upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems with various modules and components to the original equipment makers and aftermarket equipment in the industrial and transportation sectors.

Meritor values the needs of their customers to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their worldwide operations. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over 11,200 people, Meritor encourages collaboration and innovation amongst a team of knowledgeable experts.

By only hiring future focused employees, Meritor strongly feels these top-caliber people will be able to rapidly adapt to changing environments and exhibit the performance and commitment needed so as to reach results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor provides all their employees different possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, braking and suspension systems for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the needs of all their international engineering workers.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located all over the globe in 19 countries and in 5 different continents.

They have their supplier network which is specially situated to be able to support the development of the business. Each regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in every aspect of the business. The DFSS or also referred to as Design for Six Sigma ensures product reliability in every region. The team is even comprised of transactional Green Belts who make use of Six Sigma tools to business techniques and implement lean methods.
