

Clark Forklift Part

Clark Forklift Parts - Currently, there are at least 350,000 Clark lift trucks performing globally, and in excess of 250,000 in commission in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive brands of lift trucks, with parts covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really impressive intercontinental support network. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is at this time a customary feature on every lift truck.

Clark has a relentless goal to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental restrictions, thus placing them in a prevailing market position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly facilities because this system is particularly economical and permits minimal use of resources. Established to ensure maximum efficiency, this system is intended to discover and acknowledge the most efficient ways for manufacturing facility stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The contemporary value engineering agenda combines modern product development and offers superior customer support and service within the industry.
