

## TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of every international industry. Transporting industrial goods happens each and every day on our busy planet. Originally innovated as industrial vehicles during the 1930s in the U.S., forklifts gained popularity following World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread globally.

In 1949, established by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Currently the business is simply called TCM Corporation. Over the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation in the industry. TCM started building forklift manufacturing locations outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than 50 years of accumulated expertise and technology, TCM has been proudly manufacturing many models of industrial trucks, making their models recognizable all over the world. With an energetic and strong staff, TCM has been able to constantly work towards becoming a future leading material handling business.
